The American Army Under General Shafter
is Within Four Miles of the
Doomed City.

SAMPSON CONTINUES HIS BOMBARDING.

Is Preparing to Co-Operate With the Army in
the Final Assault Upon Santiago—Will
Reduce or Capture the Forts.

THE FINAL BATTLE MAY OCCUR NOW AT ANY TIME.

Scrapps-McRae Service.
CHICAGO, June 25.—Special to the News.—General Lawton's ad-
vance guard is marching to Castilla, which is just four miles from Santi-
ago, today.
General Linares, the commander-in-chief of the Spanish land forces, is
entrenched at Castilla, and a battle is expected there very soon.
Admiral Sampson has moved his ships to a position where he can to
the greatest advantage co-operate with the land forces in the great final at-
tack upon Santiago's defenses.
Admiral Sampson continues the bombardment today and will not cease
until every fort along the coast between Daiquiri and Santiago is destroyed
or has surrendered.
The American troops have captured everything within one mile of
Castilla.
The Spaniards burned all their blockhouses as they retreated.
Another dispatch to the News says General Shafter has cleared the
way to the heights surrounding Santiago, and that a general assault will
probably be made today.
Five thousand Cubans have landed at Alturas, a village a few miles
east of Santiago on the coast, and will co-operate with General Shafter's
forces.

ANOTHER CUBAN VICTORY REPORTED.

Scrapps-McRae Service.
PLAYA DEL ESTE, June 25.—Reports have reached here that Gen.
Castillo with two thousand Cuban soldiers have defeated the Spaniards
yesterday at Guasima with heavy losses. The Cuban losses are under
fifty killed. The Cubans captured two train loads of food and one hun-
dred tons of coal. The Spanish loss in killed and wounded is unknown.
Gen. Garcia with reinforcements is expected now at almost any time.

RUMORS OF A BATTLE TODAY.

Scrapps-McRae Service.
MADRID, June 25.—It is reported that the government has received a
long dispatch announcing that fighting is in progress today on land and sea
near Santiago.
Scrapps-McRae Service.
CAPE HAYTIE, June 25.—It is reported that a battle is in progress,
and that the troops and ships are engaged around Santiago. Reports say
that the Americans are advancing.

TO PROTECT BRITISH INTEREST.

Scrapps-McRae Service.
London, June 25.—The British
battleship Illustrious left for Lisbon
this morning to protect British inter-
ests on the Spanish coast in the event
that the scene of hostilities is trans-
ferred there by the visit of an Ameri-
can fleet.

GERMANY'S POSITION.

Not in the Habit of Taking up the
Cause of a Corpse.

Scrapps-McRae Service.
Berlin, June 25.—A member of
the German cabinet in a conversation
relative to the reports of her friend-
ship for Spain said that Germany was
not in the habit of espousing the
cause of a corpse. And he added
that, all the world knows that Spain
is a corpse.

FLEEING FROM HAVANA.

Reported Battle Between the
Spaniards and Insurgents
in Santa Clara.

Scrapps-McRae Service.
Madrid, June 25.—A Havana dis-
patch says that a number of fugitives
have sailed from Havana for Mexico.
The dispatch also says that Gen.
Bazas' column engaged a force of in-
surgents in Santa Clara province re-
cently, at which time a Spanish lieuten-
ant and nine privates were wound-
ed and three insurgents were killed.

A PRIZE CREW.

Scrapps-McRae Service.
Key West, June 25.—A prize
crew was today brought in by the
brig Annapolis, which was captured
by the blockading squadron. Ten
passengers and crew as prisoners
were aboard. The captured vessel
was bound to Havana from Vera
Cruz with provisions.

PEACE RUMORS CONTINUE.

Scrapps-McRae Service.
London, June 25.—Madrid dis-
patches assert that rumors of coming
peace proposals continue.

find themselves. Representative
Berry, Livingston and others say that
silver will be crowded to the wall if
the party takes up the fight against
territorial acquisition as a party
question; that the latter will be the
newest issue and the one most prom-
inent.

Representative Livingston comes
out boldly in an interview and says
that Cleveland is the logical leader if
free silver is to be sidetracked for a
non-colonial policy.
Ex-President Cleveland sees the
tendency of the administration,
and his object is a note of the warn-
ing, that is all.

CAMARA'S FLEET.

Rome, June 25.—A semaphore on
the Isle of Petellaria reports sighting
the Spanish fleet Wednesday night,
going in the direction of Suez. Pan-
tellaria is a small Italian island in
the Mediterranean, south of Sicily,
in the path of vessels bound for Suez.

The following is the strength of
Camara's squadron:
Pelayo, battleship; 9,300 tons dis-
placement; 2 12-inch; 2 11-inch; 1
6.2-inch, 12 4 7-inch guns.
Carlos V., cruiser; 9,200 tons dis-
placement; 2 11-inch, 8 5.5, 4 4-
inch guns.

Audaz, Osado and Proserpino, tor-
pedo boat destroyers.
Rapido, Patriota and Garalda, un-
armored ships.

Pelago and Buenos Ayers, con-
verted trans-Atlantic liners.
Pana, Colon, Noradonga, San
Francisco, Antonio Lopez, Alfonso
XII; six trans-Atlantic liners with
stores, ammunition, etc., and 4,000
troops.

The only real fighting ships are the
Pelayo and Carlos V., and the tor-
pedo boat destroyers. The others are
useless in a fight with Dewey's ships.

TROUBLE EXPECTED

When the Franklin Case at Ben-
ton Comes Up.

Several Marshall county men in the
city today report that there is a great
deal of feeling there over the Frank-
lin matter. Franklin was convicted
of the murder of Daisy Sullivan
nearly a year ago, but has never been
sent to the penitentiary, and has
never been sentenced by Judge Hus-
bands, although the papers have said
he was.

"The other day it was given out
that the papers in the case, which
were left in the office of the lawyers
for the defense, had been accident-
ally burned, and this has aroused
some of the people. Many do not
believe that the papers have been
burned, and some claim that it is
only a ruse to get the defendant out
of jail. There may be no truth in
these reports, but that there is con-
siderable feeling over it is not to be
doubted.
If something is not done in the
case in a few days, some openly
threaten trouble.

having stolen a lot of iron and brass
and at present time he was in the

and further news from Gen. Wheeler
place our loss in the battle yesterday
at about ten killed and forty
wounded.

Capt. Wainwright reported as in-
jured is unhurt.
The Spanish forces occupied a very
strong entrenched position on a high
hill. The firing lasted an hour, and
the enemy were driven from their po-

troops about a mile and a half from
Santiago. The enemy retired towards
Santiago.

YESTERDAY'S BATTLE.

Playa del Este, Cuba, June 25.—
A serious engagement occurred five
miles from Santiago on land. One
thousand American cavalry and
rough riders fought 2,000 Spaniards
in the thickets, driving them into the
city. The American loss was twelve
or thirteen dead. Fifty were wound-
ed, including six officers. Several of
the wounded will die. Twelve Span-
iards were found dead in the brush.
The Spaniards had every advantage
of numbers and positions.

Among the wounded are Edward
Marshall, correspondent of the New
York Journal and Advertiser, wound-
ed seriously.

General Young commanded the ex-
pedition with the regulars, while Col-
onel Wood directed the operations of
the rough riders several miles west.
Both parties struck the Spaniards
about the same time and the fight
lasted an hour. The Spaniards open-
ed fire from the thicket and brush

EFFECT IN LONDON.

SURRENDER OF SANTIAGO WAS DEMANDED,

sider it—They Will Wait Until the City Is
Attacked Before Giving Battle.

GEN. BLANCO'S VERSION OF YESTERDAY'S BATTLE.

Scrapps-McRae Service.
WASHINGTON, June 25.—General Miles believes that the final assault
on Santiago will occur today and continue until the city is surrendered and
occupied by the American troops.

DEMANDED SANTIAGO'S SURRENDER.

Scrapps-McRae Service.
CHICAGO, June 25.—A Record special from off Santiago says that
Sampson Thursday demanded the surrender of Santiago. Admiral Cer-
vera and General Linares refused absolutely to consider the matter. A
captured Spanish courier, who was brought to General Lawton's headquar-
ters, was found to have in his possession messages to Spanish commanders
to fall back to Santiago, and not risk a battle until the city is attacked.

BLANCO'S REPORT OF YESTERDAY'S FIGHT.

Scrapps-McRae Service.
MADRID, June 25.—General Blanco cables that the Americans at-
tacked yesterday the outposts of Santiago, Siboney and Saville. That
three Spaniards were killed and three wounded. The Americans also at-
tacked General Ruben's force, but were repulsed and pursued by the Span-
iards, who later captured a large amount of ammunition and stores. Cas-
seld was bombarded by the Americans yesterday.

CABINET CRISIS EXPECTED TODAY.

Scrapps-McRae Service.
MADRID, June 25.—At a cabinet meeting today the war program
was discussed. It is confidently expected that this will result in a minis-
terial crisis.
The Economical society, of Barcelona, will ask the government to be-
gin arrangements looking to the attainment of peace.

THE CORTES HAS BEEN CLOSED.

Scrapps-McRae Service.
MADRID, June 25.—Contrary to general expectations the closing of
the cortes last night was without particular incident, though attended with
much excitement. The republicans are indignant at the closing.
Public attention is almost equally divided between the American ad-
vance in Cuba and the critical outlook in Spain. Both are creating much
apprehension.

SATURDAY, JUNE 25, 1898.

THE Cubans are showing themselves to be well worthy the assistance Uncle Sam is giving them in their efforts for freedom. They are good soldiers and fighters "from away back." They fight for freedom.

PADUCAH is not the only city in which the wholesale grocers are waging a bitter warfare amongst themselves over sugar. St. Louis is selling sugar at stunning figures, while the American Sugar Refining Co. is trying to pacify the irate grocers, who appear to be engaged in seeing who can throw the most money away. Some of the people are getting the benefit of the low prices.

THE wind jammers of Congress, who in their opposition to the annexation of Hawaii prate about imperialism are not up in their history. This annexation has been discussed by various Presidents and the ablest men in the State Department with approval for the last seventy-five years. It was reserved to Cleveland to raise a kick. No one could possibly accuse the long line of our statesmen of all parties with imperialism. Annexation of Hawaii has always been a question, not of policy, but of time and opportunity—when it might be done without bringing on a foreign war. The combination of circumstances is now favorable, and annexation will be accomplished.

So far as the Philippines are concerned we do not want or care for them. They were seized not as a matter of conquest, but as an act of war, to destroy the power of an enemy and force a satisfactory peace. In the settlement of the war with Spain we can readily say we do not wish the Philippines, but prefer indemnity in cash, and let Spain raise this cash by sale or mortgage of those islands to any power which will buy or loan on them. In this way we can avoid any complication with foreign nations in disposing of the islands and let Spain assume the responsibility. All we wish in that part of the world is a naval and coaling station, and the balance can go almost anywhere.

WITH the annexation of Hawaii the sugar trust dies the death. How many of United States senators have been sugared into opposition to annexation, will shortly be found out. There is no doubt the most powerful lobby which the sugar trust can buy is at work to defeat annexation. As soon as annexation is complete, then the Pacific railroads will hire their gangs to find constitutional points and governmental policies to defeat the Nicaragua canal. This canal is now proven to be a necessity and those sharks may as well save their money, for congress will build the canal, notwithstanding the anticipated opposition of Grover Cleveland. Just such statesmen as he, are opposed to progress—opposed to everything which he does not boss.

THE AMERICAN IDEA.

The American idea is growing. It can be called whatever one wishes—imperialism, spirit of conquest or desire for colonial extension—but in any event the idea is gaining strength with the people every day. A few weeks ago Chauncey Depew took occasion to express his opposition to the idea of territorial expansion. After three weeks' travel in Europe, Mr. Depew has changed his opinion and he now sees that the United States must meet the results of the war and assume the responsibilities of the outcome, whatever they may be. He says:

"New conditions are arising all the while with the progression of the war which make it difficult to keep out or get out of this colonizing business. We must take into view the temper of our people, who would certainly never give any colonies back to Spain. Transferring them, or any of them to a European power would lead to a European war in sixty days. It looks as if we would have to paint our white elephant brown and teach him to work."

WANTS TO BE DEPUTY.

Mr. W. A. Wickliffe, of the city, is an applicant for the position of deputy warden of the Edinville penitentiary, and last night sent off his petition. Ex-Senator Mc D. Ferguson, of the city, is an applicant for warden, as is Ex-Senator T. J. Elmore, of Mayfield.

PRESIDENT'S COLONIAL POLICY.

(Washington Correspondent Cincinnati Commercial-Tribune.)

In view of the many false theories existent, and the misleading stories in circulation relative to the president's colonial policy, an accurate statement from a high authority as to the aims and purposes of the administration will prove of interest. The summary of the situation:

First—The administration intends to establish a protectorate over Cuba—a species of protectorate which involves the retention of a military force in the island and the constant supervision of the Cuban government as it is established by the military authorities of the United States.

Second—The seizure and permanent occupation as a United States possession of Puerto Rico.

Third—The seizure and occupation of the Canary Islands as a permanent possession, destined principally for a strategic base and as a naval station.

Fourth—The occupation of the Philippines for at least a term of years, for the purpose of making the revenue of these islands pay the indemnity which will be demanded of Spain at the conclusion of the war.

The President and his advisers, with the exception of Senator Elkins, had no idea that a few short weeks would see a policy of expansion take deep root in either administration circles or the populace. Senator Elkins, who originally was opposed to the war, declared in the open Senate, when the war came, that he favored the absorption of every Spanish colonial possession we could seize. Ever since he has adhered to this view, and insisted that the war should bring, in addition to an enormous debt, a compensation. The Senator, in his crusade, has made many converts among the President's advisers, and the policy outlined above has gradually been formulated. The project for a Cuban protectorate was practically decided on before the war began. In the minds of many leaders the belief exists that when the Cubans, under the parental care of the United States, establish a stable government, the voters of the island will clamor for annexation, in which event the American flag, once raised, would never be hauled down.

The determination to take Puerto Rico germinated several weeks ago, and became a fixed policy less than a month ago. The taking of the Canaries was originally suggested as a matter of naval expediency. It is now urged as a permanent necessity, valuable from the military and naval advantage it would give, and because of the healthfulness of the climate, the fruitfulness of the soil and the good character of the oppressed people there.

The Philippines have given the President much food for thought. Many miles away, inhabited in a large part by the heathen and the savage, its occupation as a permanency would precipitate grave questions. The president will let the future decide our permanent attitude toward these possessions. During his administration, however, the American flag will not be lowered. As in the case of Puerto Rico and the Canaries, the government of the Philippines will be, for the present, military in character. Troops will be retained there, the commanding general will be the governor, and under him will be the officers acting as revenue collectors and other functionaries, who, under ordinary circumstances, would be the agents of a civil system. When peace is restored and the island recover from the convulsion into which they have been thrown by Spanish misrule and the activity of the insurgents, the president will propose to congress the adoption of a governmental plan similar to the one employed in California and New Mexico when they were first taken into the Union.

The administration has also decided that tariffs upon American goods will be levied in Puerto Rico and the Philippines during the continuance of the war, as a war measure. After that United States commerce will enjoy free trade in these islands. Their Americanization is expected to be a matter of but a few years.

DEWEY WARNED PRINCE HENRY

The German Officer's Jocular Threat to Interfere Promptly Answered.

Hong Kong, June 25.—An event that is significant at the present crisis occurred when Prince Henry called on Admiral Dewey to say good-by when the American fleet left Chinese waters for Manila. Consul Wildman and Captain Gridley were on the quarterdeck of the Olympia in conversation with Dewey and the Prince. The Prince said, laughing, to the three, but looking Dewey in the eye: "I will send my ships to Manila to see that you behave."

Dewey's historic jaws closed, but with perfect grace he replied: "I shall be delighted, but permit me to caution Your Highness to keep your ships from between my guns and the enemy."

The Prince saw the point. If the Germans ever get in Dewey's way, we shall have another war on our hands.

The atmosphere is heavily charged here. Admiral Dewey will not wait sixty minutes after arrival of troops to demand the surrender of the city. Aguinaldo's forces encircle the city, waiting Admiral Dewey's command to attack.

SENSIBLE YOUNG MEN.

Washington, June 25.—Two near relatives of President McKinley have enlisted in the volunteer army as private soldiers. They are his nephews, John Dewitt Barber and James Fuller McKinley, both of whom have been his guests at the white house for some time.

The president was urged by some of their friends to appoint them second lieutenants in the army, and he might easily have done so, but he declined to exercise his prerogative in this matter in favor of his relatives, and said that inasmuch as they were willing to enlist as privates he would prefer that they do so.

They both applied for enlistment in the Eighth regiment, Ohio volunteer infantry, now camped at Falls Church as part of the second army corps. They were examined and found to meet all the requirements and have been regularly mustered into the service of the United States.

A HOT TIME.

The highest temperature yesterday was 97 in the shade, and this was the warmest of the year with the exception of one day about two weeks ago, when the maximum was also 97.

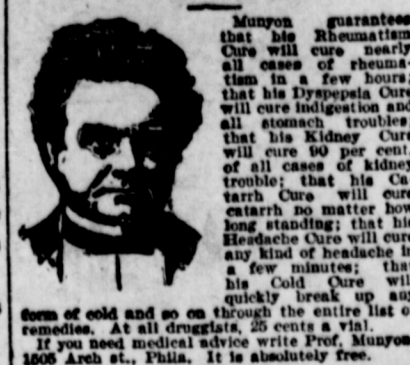

The people seemed to suffer more from the heat yesterday and last night, especially last night, when a delightful breeze died away and left people fairly sweating in their beds. The thermometer, at its highest point, though, was only 77 degrees. Today it has been some cooler with a good breeze and rain.

que hats of colored straw with a flare in front, turned back from the face, trimmed in white tulle and white tips completed these pretty toilettes.

The latest from Paris tells us if we want to be rigidly proper we should wear our hats turned well back off the face. A wide brim hat turned backward off the forehead under which is a pretty face with a fair amount of bang is considered by Parisian the fondest of our fads and fashions, and whether good or bad quite the thing.

The following notice is clipped from the Washington Post of last Wednesday, and is of a gentleman recently in the city and who was a guest, while here, of his cousin, Mr. J. T. Donovan. He was entertained by the Elks, also, while here, and will be pleasantly remembered by his many friends. The Post says:

Mr. John M. Quinn, of Montana, who is stopping at the Wellington, is one of the best known newspaper men of the West. He was formerly editor of the Butte Miner, and on that paper made a wide reputation as a writer of uncommon ability.

But though gifted with the pen, Mr. Quinn is even more effective as a public speaker, and men of fine taste have been heard to declare that in point of ability to rouse an audience to enthusiasm by the spell of pure oratory, he has few equals in the whole United States. An instance of his genius as an orator is cited in the speech made by him at Tammany Hall's last Fourth of July celebration. When Quinn rose to address the big aggregation of braves that crowded the old wigwam to the utmost capacity, he was not known by half a dozen people in the audience. Before he had spoken six sentences men were asking each other "Who is he? Before he had uttered that many more, there was a perfect storm of cheers. When he finished there was a rush to shake his hand. He had not expected such an ovation, and was visibly embarrassed at its warmth and magnitude. His speech was easily the gem out of numerous delivered that day. He has a grand voice, a magnificent delivery, and back of all, intellect, and the combination caught Tammany, as it had often done audiences in the West.

The patriotic woman may frown at things that are marked "French," but she still admits that none other can furnish examples of such faultless fashion as the French seamstress. The wearing of fine white jackets is one that the French woman never does away with. We call them dressing saques. I do not think there is anything prettier or more suitable for summer wear or can be allowed to grow rusty on account of the warm weather. On the contrary, they receive a fresh application of oil, and continue to whirl like a merry-go-round. Many delightful parties have been given in honor of visitors in the city, and these, together with the club meetings, have made the week one of pleasure.

On Friday afternoon, at the home of Mr. Henry E. Thompson, Mrs. Edwin Allen Rivers entertained the Young Ladies' Circle club and a few invited guests with a Tokio fete, the Japanese effect being carried out in every detail. Beautiful prizes of Japanese ware were awarded the victors. Mrs. Charles Moequet won the club prize, and Mrs. Woods, of Baton Rouge, the visitor's prize. To Miss Mary Boswell the consolation prize was presented and Miss Anna Boswell the booby. Mrs. Ed. Vaughan will be hostess of the club at its next meeting.

Is it not queer how wonderfully superstitious brides that are-to-be become as the wedding day approaches. There is not one in a thousand who does not hunt up every old adage and make it a life study to live up to them all. They all have heard of course that: Something old, and something new, something borrowed, and something blue must be worn and she will put all of her wits together to devise some means by which she may appear at the wedding wearing something old, new, borrowed and blue.

For any rash girl now contemplating matrimony, a prospective June bride furnishes the following couplet of good advice: Married in pink, Your fortune will sink; Married in blue, Your husband is true; Married in brown, You'll live in the town; Married in green, Your husband is mean; Married in red, You'll wish yourself dead; But—married in white, You're sure to be right.

In a New York paper of recent date an account of a fashionable wedding was given that was very unique for the summer time bride who sighs for novelty in bridesmaids frocks. She may welcome this new idea, each of the maids wore a different colored frock, veiled in a fleecy cloud of airy white tulle. There was one in blue, one in pink, one in yellow, one in mauve and one in pale green. The colors blending into one another these costumes had a most pleasing effect. Crossing the bust of each frock was a ribbon of clear, fine lace and ribbon ruchings the ends met at the back and trailed over the skirt as a sash. Tiny ribbons of its own color ran in crinkled lines over the bodice and skirt of each and pictures.

Argument

Is not necessary to convince a thinking person that money is thrown away when invested in a typewriter that has not passed its experimental period. Years of hard, thoughtful effort and continual experimenting are necessary before reaching approximate perfection in a writing machine. Is it wisdom, then, for one to contribute to this cost of experiment?

Reputation Established

Years of experience, constantly increasing sales the world over—the natural result of typewriter excellence—is the unquestioned record of

THE SMITH PREMIER TYPEWRITER.

When you buy a Smith Premier you obtain a writing machine that is in advance of all others in points of improvement and durability. Do not pay for the costly experiments of others. The Smith Premier passed its experimental period years ago. It now stands the leader among writing machines. Descriptive catalogue free.

Isn't It the Truth?

She asked me to look at her watch and said "the old thing wouldn't go." After examining it I found, pasted against the inner side of the case, a portrait of her first love, and a lock of his hair. Some dead forget-me-nots. A newspaper clipping announcing her recent engagement. A four-leaf clover. Between the inner cover and the works were two pictures and a recipe for cold cream. And still the obstinate thing refused to go. How is your watch running? Is it out of repair? If so, bring it to me and have it fixed right. Work guaranteed.

GOES TO WAR.

Secretary Knox Has Been Granted a Leave of Absence.

He Will Leave Here With the Recruiting Officer—May Return Here.

The local board of directors, of the Y. M. C. A., has granted to the efficient and popular secretary, Mr. A. Knox, a leave of absence or vacation until Sept. 1. Mr. Knox will join the army, and if the war is over at the expiration of the time designated, he will return to Paducah and resume his position as secretary of the association. If not, it will remain in the charge and control of some member of the association.

Mr. Knox has for some time past desired to join the army, but did not go with the Paducah boys, because the association could not well do without him. He will join the Third regiment when the recruiting officer arrives next week, and will go into the ranks. He expects to do much good Christian work among the soldiers.

Secretary Knox resides in Pine Bluff, Ark., is very popular in Paducah, and has many friends here who wish him success as a soldier, as he has been a success as home secretary of the Y. M. C. A.

A Crooked Town.

The most curious town in England is Northwich. There is not a straight street, nor, in fact, a straight house in the place. Every part of it has the appearance of having recently suffered from the visitation of an earthquake. At a depth of 200 or 300 feet are immense subterranean lakes of brine, and as the contents of these are pumped and pumped away, the upper crust of earth is correspondingly weakened, and the result is an occasional subsidence.

Reminded Him of Millinery Bills.

He—That is the dearest spot on earth to me.

She—Why, dear?

He—Read the sign.

She did and remembered that she had bought her last two Easter bonnets there. Then there was silence for two straight blocks.—Buffalo Times.

Good Reason for Laughing.

A—I fail to see how you can laugh at such a silly remark.

B—My dear fellow, I can't help it. I owe the fellow £100.—Tit-Bits.

She Assisted Him.

"Ah," sighed the poet, "I shall be satisfied if I can produce but one line that will make the world better."

"Say," said the poet's wife, "just come back here and try your hand at stringing this clothesline, will you?"—Richmond Times.
